

Nachos

Assemble your ingredients:

- Corn Chips
- Grated Cheese
- Warm Spiced Beans

Preheat the convection oven to 400°.

Place a stack of baking trays on the table and lightly oil the top one. Put serving-size piles of corn chips on the baking sheet. Top with spiced beans and grated cheese.

Place the tray in the bakers' rack until all trays are filled.

Lightly oil the next tray in the stack and continue until the necessary number of portions are made.

Would some people prefer a non-dairy portion? Bake the nachos for 12-15 minutes or just until cheese is well-melted.

Serve with Sour Cream, Salsa, Chopped Cilantro and Sliced Black Olives.
